CNF Among Top Cyber Security Providers

SAN ANTONIO 09 Dec. 2016 – The San Antonio Business Journal has confirmed and listed CNF Technologies among the top cybersecurity providers in San Antonio, Texas. CNF was ranked fourth overall in San Antonio which is home to over 100 large and small industrial base firms focused on cybersecurity. CNF’s CEO, Roxanne Ramirez commented, “This is a great honor for us to be ranked in the Top 4 Cyber providers in San Antonio. The fact that San Antonio has the largest collection of cybersecurity professionals outside the nation’s capital makes it a very big deal. I believe that our dedicated, experienced, and outstanding employees are our most valuable assets. CNF has built a reputation of delivering what we promise and exceeding our customers’ expectations.” Over the last five years CNF has maintained an impressive and well above industry standard retention rate at 95%. This provides CNF’s customers with the longevity and consistency needed for on-time deliverables, superior situational awareness, and continuity of operations; which contributes greatly to CNF’s exceptional contractor performance assessments. CNF provides innovative techniques and technologies to produce next generation intrusion detection and prevention capabilities, delivering a comprehensive state-of-the-art cybersecurity platform available in both fixed and mobile configurations. Home to three military installations, San Antonio is a pro-military city with a strong defense reputation and a rapidly growing IT and cyber industry. San Antonio is home to the 24th Air Force, a key component in the U.S. Cyber Command where 1,300 skilled cybersecurity professionals defend the Air Force network and IT systems. Earlier this year, Joint Base San Antonio-Lackland became the new home for the 25th Air Force, the Air Force Intelligence, Surveillance and Reconnaissance, which specializes in intelligence gathering and electronic warfare. San Antonio is also home to NSA Texas whose mission is to conduct worldwide cyberspace operations, signals intelligence and information assurance operations. As the mission and demand for cybersecurity workers in San Antonio continues to grow, CNF will recruit, grow, and hire the most qualified and skilled professionals to exceed customer satisfaction and reach mission success.
