CNF Speakers at CyberTexas 2018

SAN ANTONIO 15 August 2018 – Military, Government and Industry partners from across the nation came together to network, discuss, learn, and participate in the CyberTexas conference August 14th and 15th. CNF Technologies, one of San Antonio's largest and fastest growing cybersecurity companies participated and provided speakers with decades of experience further highlighting and demonstrating San Antonio as a hub for all things cyber. CNF's Founder, Fred Ramirez participated in the "300 Years in the Making: How San Antonio Developed the Foundation for a Thriving Cybersecurity Ecosystem" panel at CyberTexas, providing his unique technical insights from over 30 years of developing and implementing state of the art cybersecurity capabilities, professionally growing and recruiting local cybersecurity experts, and expanding the city's cybersecurity workforce by creating hundreds of jobs. Fred, a previous inductee into the Cyber Hall of Honor also had the honor of introducing Ms. Angelica Collazo as a 2018 inductee.

CNF's Chief Technology Officer, Andrew Pilato gave an excellent presentation on Big Data & Cyber Defense discussing Big Data use cases, the Big Data Cyber Defense model, and the Common Cyber Analysis Platform. Showing direct, personal engagement and investment into future employees, CNF's CEO, Roxanne Ramirez, along with Fred and Andy dedicated time to personally participate in the CyberTexas Job Fair, meeting and engaging with hundreds of candidates.

About CNF Technologies

CNF is an award-winning full-spectrum cyber operations, systems engineering, and research and development firm, founded in 2005 and headquartered in San Antonio, Texas. CNF is recognized as one of San Antonio's largest and fastest growing cybersecurity providers. We are a well-known employer of choice and trusted Government services provider in developing, testing, fielding, sustaining, and employing Cyber weapon systems and technologies for Offensive and Defensive Cyber Operations, Cybersecurity Risk Management, and support to Law Enforcement and Counterintelligence operations. CNF's signature rapid prototyping capability produces state of the art cyber defense platforms enabling efficient and all-encompassing cybersecurity for small and large enterprises, information, and infrastructure.
