CNF Achieves ISO 9001:2015 Registration

San Antonio, Texas. Dec. 5, 2017 –CNF Technologies, a provider of innovative cyber technologies and capabilities, and a top cybersecurity provider in San Antonio Texas has achieved the internationally recognized ISO 9001:2015 certification, a testament of CNF’s exemplary quality management system, procedures, and ability to consistently provide services that meet or exceed customer and applicable statutory and regulatory requirements. The independent assessment was conducted by a leading, globally recognized certification expert, the SAI Global Certification Services and demonstrates CNF’s commitment to customer service and quality in delivery. CNF has earned the right to display the distinguished ISO 9001 certification mark, demonstrating conformance to standard in the areas of Business Development, Operations Planning and Control, and Program Management for information technology, systems integration, and cyber operations.

The ISO 9001 is the international standard establishing requirements for a comprehensive quality management system (QMS). Achieving the ISO 9001 demonstrates a company’s ability to consistently provide products and services that meet customer and regulatory requirements. ISO 9001 was first published in 1987 by the International Organization for Standardization (ISO), an international agency composed of the national standards bodies of more than 160 countries. The ISO 9001:2015 is the most recent standard of its kind, focusing on quality management systems, performance and risk-based thinking and accountability in all organizational processes that improves communications, efficiency, and implementation of continuous improvement.
